This course is appropriate and adaptable to school based training with students and staff.

Description
SMARTBoards and SMART Notebook are one of the most popular teaching technologies in the modern classroom. Develop how to be an effective SMARTBoard user to enhance teaching. Move on from SMART version 10 to 11.

Aims to:-
- Learn how to customize SMART Notebook ie. Select a font as default that is most suitable for your age group, set the thickness of the pen.
- Develop understanding of the functions of the tools provided with Smart Notebook. i.e .the camera for capturing images and video screens, linking objects on a page, using shapes, pens etc.
- Discover where to find 1000's of Gallery and '*Free*' online shared resources.

Approach
 During the training, staff attending will be encouraged to use IT to explore the teaching potential of SMART Notebook to support teachers & learners. SMART Technology is available in many schools so we will be using the programs and powerful facilities available to teachers in a workshop; with or without a SMARTboard.
